

**GWM M4**

**GWM**  
Focus Dedication Specialisation

The new and improved GWM  
M4 compact SUV is here...

marrying sporty good looks with more than capable performance, both on road and off. Now you don't need to limit yourself to one kind of lifestyle, when there are so many interesting routes to explore.

**GEARED FOR THE CITY AND EVERYTHING ELSE.**

## THE NEW ORIGINAL.

Whilst it's still undeniably an M4 appearance wise, the updated GWM M4 has a distinctive and dynamic new look that will turn heads wherever you go.

A sporty black trim shows that every care has been taken with attention to detail, whilst the refined new front grille with Daytime Running Lamps (DRL) demands attention.

Robust ground clearance of 185mm, an edgy tail wing and a handy luggage carrier hint at weekends away on exciting adventures.

**NOT JUST A PRETTY FACE.**

Powered by a 1,5-litre VVTi petrol engine engine that's been designed with fuel efficiency in mind, the two-wheel drive GWM M4 has a five-speed manual transmission.

Power steering ensures smooth handling, and the adjustable steering column makes for a comfortable time behind the wheel. Every time.

## SAFETY FIRST.

The safety features inside the GWM M4 are not only geared to keep you and your passengers safe while driving and parking, but also to safeguard the vehicle against theft.

Apart from ABS with EBD, safety features include dual airbags, seatbelt unfastening warning system, child seat anchorages and child door locks. A rear window defogger, height adjustable headlamps, and front and rear fog lamps ensure improved visibility, and you'll find parking in tight spots easier with the help of the reverse radar.

To keep your GWM M4 safe there's an immobiliser as well as remote central locking, plus a nifty car locating function to help you find it in crowded shopping mall parking lots.

## ALL SYSTEMS GO.

Enjoying your final destination  
also means enjoying every  
kilometre of the journey.

Luckily, the GWM M4 makes this a breeze with an abundance of comfort and interior features.

A trip computer puts all the vehicle's vital statistics at your fingertips, whilst the steering wheel with audio controls and Bluetooth ensure that you're always in control. Cup holders and a cargo curtain help keep things organised, as do the separated foldable rear seats with a 60:40 split that provides extra luggage space.

There are also electric windows with push-down function at the driver's seat, automatic air-con and a CD player.

**KEEPING YOU ON THE ROAD.**

GWM understands that buying a car may be one of the biggest purchases you will ever make.

The GWM M4 comes with a 5-year/100 000km warranty as well as 2-year AA Roadside Assistance. A 5-year/60 000km service plan is optional.

Specifications	M4

**The GWM story**

Great Wall Motors started production in Baoding, China in 1984. Just like its namesake, the famous landmark, Great Wall Motors is a well-known name in China. Its pick-ups and SUVs have been best sellers in China for decades, and today the brand is going places globally.

GWM South Africa opened its doors in March 2007, sharing the same commitment to providing every South African with quality vehicles they can trust, afford and LOVE. To keep GWM vehicles as good as new and owners as excited about the brand as the day they drove their GWM off the showroom floor, 60 dealers nationwide provide friendly and professional after-sales service.

# HELP US CARE FOR THE ENVIRONMENT.

As a global auto manufacturer, we care deeply about the environment. As such, we have put together a dedicated research panel which focuses on environmentally friendly automotive power. Today our vehicles are equipped with greener engines, delivering lower fuel consumption, lower emissions and higher performance. We have also made great progress in the application of hybrid power, including pure cell power and natural gas. You could call it innovation. We call it meeting our responsibility towards our planet.
